

Designed Exclusively for Competitive Player Prep: Unlike conventional golf clinics that rely on random, unstructured practice, **Forged Clinics** provide an intentional, holistic training environment. While swing mechanics are vital, technical instruction alone does not cover the complete tournament experience. Forged Clinics focus heavily on the critical, ancillary components players do not receive in standard private lessons—equipping golfers with the tools needed to perform under pressure.

HOLISTIC DEVELOPMENT PILLARS

PHYSICAL & PERFORMANCE ASSESSMENTS

- **TPI Assessments:** Titleist Performance Institute physical body evaluations.
- **Speed Assessments:** Tracking and optimizing swing speed and athletic output.

COURSE MANAGEMENT & NAVIGATION

- **Green Reading:** Advanced green mapping and break reading skills.
- **Tournament Tools:** Tactical use of compasses, yardage books, and pin sheets.
- **On-Course Strategy:** High-level decision-making and risk management.

STRUCTURE, ANALYTICS & TRACKING

- **Player Binders:** Customized binders for structured practice plans and active note taking.
- **Practice Structure:** Training routines built for maximum efficiency and transfer.
- **Warm-Up Routines:** Tour-standard pre-round preparation protocols.
- **Stat Tracking:** Comprehensive data tracking to pinpoint development needs.

SEASONAL ADAPTABILITY

- **In-Season Focus:** Practice round strategy, tournament observation, and live competitive play.
- **Off-Season Focus:** Fundamental skill building, speed gains, and structural prep.

THE PRIMARY MISSION

To assist with the complete improvement of all ancillary components of competitive golf, establishing a high-level environment where players master the non-technical, strategic, and physical aspects of the game required to excel in tournament conditions.
